What is De-Googling?

- <https://en.wikipedia.org/wiki/DeGoogle>
- <https://www.reddit.com/r/degoogle/>

What is De-Googleing?

- <https://en.wikipedia.org/wiki/DeGoogle>
- <https://www.reddit.com/r/degoogle/>
- Stop "paying" for their product.
- Cooperation with intelligence & law enforcement agencies:
 - Protest the practice.
 - Avoid data subpoenas if you are a target.
- Avoid data collection:
 - Targeted advertising.
 - Online profile.
- Web tracking across non-Google sites.
 - DoubleClick ads.
 - Like/Follow/Share buttons.
 - Google Analytics.
- Collection, use, and sharing of user data:
 - Across Google products,
- Privacy issues in its data collection and data retention policies.

What are your goals?

Normal person? Celebrity? Political dissident or refugee?

What are your goals?

Normal person? Celebrity? Political dissident or refugee?

Me?

Where to start?

Where to start?

Email.

Ok, you DeGoogled -- now what?

Limit tracking:

- Ad blocker that supports widget replacement.
- Privacy Badger (EFF).
- Firefox Containers (the best, worst-documented feature).

Is true privacy possible?

Is true privacy possible?

- For normies?
- For the privacy-conscious?
- For the paranoid?

Is true privacy possible?

- For normies?
- For the privacy-conscious?
- For the paranoid?
- For anyone that knows a normie?
